- Digital Photo frame: support the picture formats JPG, BMP, GIF, PNG etc. Easily select your favorable picture as background.;
- TV - OUT output: support to connect to the TV;
- Audio output: Audio of this product can be output to other music controllers, to share the music;
- USB can read mp3,wav music file from a U-disk;
- SD card can read mp3,wav music file from a SD card;
- FM radio supports frequency from 88MHz to 108MHz;
- Bluetooth receiver supports wireless audio transfer with smart phone/computer;
- 3.5mm audio jack supports 3.5mm analog audio input;
- Time display: Calendar;
- Memory function: memory for the status of last power off;
- Overload, over-voltage protection function
- IR remote control to control all operation

### Specification

Model No.	HMC-186
Rated Power / Max Power	15Wx2 / 30Wx2
Audio Input	USB / FM Tuner / Bluetooth
Input Voltage	220V 50/60Hz or DC 9~12V
Sensitivity	88±3dB
Frequency Response	30-18KHz
FM Tuner Frequency	88~108MHz
Speaker Output	8 ohm
Dimension	86 x 86 x 60 mm

## HMC-286

This product is a small wall mount Bluetooth player background music system. It has built-in amplifier and several audio inputs to play music. This product uses high performance amplifier IC solution, which provides high quality sound. The output power can reach 30W x 2 to drive a pair of speakers. This product has a 34mm \* 27mm display screen. Information of music like music title, artist name, bit rate and total number of songs can be displayed on its screen. It is very suitable for home, office, restaurant, shop, etc.
